Western Europe
Time

Presentation Titles

09:30-09:50	Join the Meeting (AV Check)
09:50-10:00	Opening Remarks and Introduction
10:00-10:30 (25 min+05 min)	Design and Engineeing of Advanced Polymer Based Materials for Individual Protection Equipments with Optimization of Each Layer Joana Curto, University of Beira Interior, Portugal
10:30-11:00 (25 min+05 min)	An Experimental Study on Double Recycling in Road Pavements Augusto Cannone Falchetto, University of Alaska, USA
11:00-11:30 (25 min+05 min)	Application of Sodium Alginate in the Controlled Drug Delivery System Magdalena Labowska, Wrocław University of Science and Technology, Poland
11:30-11:40	Coffee Break
11:40-12:10 (25 min+05 min)	Active Hydrogel Dressings Bożena Tyliczszak, Cracow University of Technology, Poland"
12:10-12:40 (25 min+05 min)	Microencapsulation of Essential Oils with Biopolymers Manuel Jose Lis Arias, Polytechnic University of Catalonia, Spain"
12:40-13:10 (25 min+05 min)	Albumin Nanospheres for Drug Delivery Applications Magdalena Glab, Cracow University of Technology, Poland"
13:10-13:40	Lunch
13:40-14:10 (25 min+05 min)	Magnetic Nanoparticles Coated with Poly(Ethylene Glycol) Designed for Targeted Drug Delivery Anna Drabczyk, Cracow University of Technology, Poland"
14:10-14:40 (25 min+05 min)	Innovative Biobased Polymer Nanocarriers with Tea Tree Essential Oil for Dermic and Cosmetic Applications Flávia Morais, University of Beira Interior, Portugal"
14:40-15:10 (25 min+05 min)	Biocompatible Transdermal System for Medical Application Sonia Kudfacik-Kramarczyk, Cracow University of Technology, Poland"
15:10-15:20	Coffee Break
15:20-15:50 (25 min+05 min)	Obtaining and Characterizing Organic Materials Lais Sardinha Costa, Universidade Federal do Pará, Brazil"
15:50-16:20 (25 min+05 min)	TBA Farzad Kooshad, Stony Brook University, USA"
16:20-16:50 (25 min+05 min)	The Implementation of a Distant Computer Controlled technology for the Aid of the Disabled Hugh Rosshirt, Stony Brook University, USA"
16:50-17:00	Farewell Address – Closing Remarks
